Dear ABC Center,

My daughter, Emma Peterson age one (1), has been in the care of Ms. Heather Ashton-Black and Mr. Andrew Black for many months. Emma is my husband (Brian Peterson) and I first child. When the decision was made that I needed to go back to work the stress and worry of finding a caring, loving, and an attentive placement for our daughter was a task we did not take lightly. I visited many preschools in our area, and was not finding the level of care I wanted for my daughter. Then I heard about the ABC Center.

In the months my daughter has attended the ABC Center she has grown to a degree that has joyed my husband and me. She loves going to school. Emma participates in activities that enrich her both in interest and mind. She has learned sharing with others, an extensive vocabulary, and how to take care of others. Along with the everyday curriculum a toddler receives.

The greatest gift ABC Center gave our family is the assurance of care, love and safety. Every parent wants the best for their child, and the Peterson's would like to give our greatest "Thank You" to Heather and Andy for taking such wonderful care of our daughter, and giving us peace of mind while she was in their care.

Very Truly,

Whitney C. Peterson
